

Course Description

Mathematics

M701: Selected Topics of Algebra

701: مختارات من الجبر

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

Math702: Selected Topics of Functional Analysis

702: مختارات من التحليل الدالي

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M703: Selected Topics of Differential Equations Theory

703: مختارات من نظرية المعادلات التفاضلية

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

704: Selected Topics of Advanced Numerical Analysis

704: مختارات من التحليل العددي المتقدم

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M705: Selected Topics of Complex Analysis

705: مختارات من التحليل المركب

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M706: Selected Topics of Topology

706: مختارات من التوبولوجي

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M707: Selected Topics of Differential Geometry

707: مختارات من الهندسة التفاضلية

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M708: Selected Topics of Operation Research

708: مختارات من بحوث العمليات

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M709: Selected Topics of Mathematical Theory of Elasticity مختارات من النظرية الرياضية للمرونة

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M710: Selected Topics of Theory of Quantum Mechanics مختارات من نظرية ميكانيكا الكم

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M711: Selected Topics of Fluid Mechanics مختارات من ميكانيكا الموائع

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M712: Selected Topics of Electrodynamics مختارات من الكتروديناميكا

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M713: Selected Topics of General Relativity مختارات من النسبية العامة

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M714: Selected Topics of Theoretical Mechanics مختارات من الميكانيكا النظرية

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M715: Selected Topics of Advanced Probability مختارات من الاحتمالات المتقدمة

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

716: مختارات من العمليات العشوائية المتقدمة

M716: Selected Topics of Advanced Stochastic Processes

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M717: Selected Topics of Advanced Estimation Theory مختارات من نظرية التقدير المتقدمة

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M718: Selected Topics of Time Series Analysis مختارات من تحليل السلاسل الزمنية

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M719: Selected Topics of Advanced Sampling Theory

719: مختارات من نظرية العينة المتقدمة

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M720: Selected Topics of Markov Chains

720: مختارات من سلاسل
ماركوف

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

M721: Selected Topics of Statistical Inference

721: مختارات من نظرية الاستدلال الإحصائي

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.

722: مختارات من الإحصاء غير البارامترية المتقدمة

M722: Selected Topics of Advanced Non-Parametric Statistics

The content of this course is put together in consultation with the student's supervisor. It is an aid to help each student to complete his/her studies successfully and within the time allotted.
