

Internal Regulation of Bachelor Veterinary Medicine

Admission Regulations

General Rules for Admission

The Faculty is subject to the admission system of Egyptian universities in force in the country as follows:

- 1- Students are accepted to study at the Faculty according to the Faculty's needs each year from among the students who have obtained a General Secondary School, the Scientific Division, or an equivalency certificate in the Scientific Division or an equivalent certificate in accordance with the provisions of Article 75 of the Executive Regulations of the Universities Organizing Law.
- 2- The Faculty accepts the transfer of students from corresponding university Faculties in accordance with the rules issued by a decision of the university council. It is approved by the Faculty council if it is proven that he has successfully passed equivalent exams in the Faculty he is transferring from.
- 3- Incoming students from all countries are accepted after the approval of the General Administration of Expatriates and the competent authorities in the country of dispatch
- 4- To be fully dedicated to studying.
- 5- It should not have been more than the period allowed for obtaining the certificate required for admission the Egyptian system.

Program organizational structure

Subjects	Contact hours			Credit hours	Percentage	Science characterization
	Lecture	Practical	Total			
Basic sciences	32	44	76	55	28.65%	- Biophysics, Biochemistry. - Biostatistics, Molecular biology, Embryology, Anatomy, Histology, physiology, Animal, Poultry and Fish breeding and Production.

Pre-clinical sciences	28	34	62	43	22.40%	- Genetics, Nutrition, Pharmacology, bacteriology, Mycology, Immunology, Virology, General Pathology, Milk hygiene.
clinical sciences	51	66	117	84	43.75%	- Internal Medicine, Infectious diseases, Forensic medicine and Toxicology, Poultry and fish diseases, Hygiene, Surgery, Theriogenology, Clinical pathology, Meat Hygiene, Specific Pathology
Humanities	2	2	4	3	1.56%	- Veterinary medical terminology. - Veterinary economy and farm management.
Computing	1	2	3	2	1.04%	- Computer
Discretionary Subjects	5	00	5	5	2.60%	- Compulsory and elective university courses
Total	119	148	267	192	100%	
Training	One year Training after completing the program courses					

Study and Registration System

System of Study

The duration of study to obtain a Bachelor's degree in Veterinary Medicine is six years, including five academic years and a training year. The study years consist of five levels, and each level consists of two semesters. The duration of each semester is fifteen weeks, interspersed with periodic exams, followed by written, oral, practical or practical exams for each semester separately. The summer semester is optional for students, and the duration of study is eight weeks, provided that the weekly academic hours allocated to the courses taught in this semester are doubled. This semester is followed by written, oral, practical or practical exams. The nature of the exam is determined according to the course content. In cases of graduation, courses may be opened in summer semester in any number approved by the Faculty Council. The student is

subject to the Universities Organizing Law and its amendments with regard to the opportunities available to the student for study, dismissal and re-enrollment.

Hybrid Education:

The Faculty Council may, after taking the opinion of the relevant department councils and according to the nature of the academic courses, decide to teach one or more courses or part of the course in the hybrid education style, which includes 60% face-to-face education and 40% distance education so that the study in the course is according to the nature of each program from Faculty programs in a proportion consistent with the nature of the study for each course and in order to achieve the desired goals of teaching the course and program. In all cases, the matter is submitted to the University's Education and Student Affairs Council for approval in preparation for submitting it to the University Council for approval.

Program Study Requirement

The study plan of the program is divided into the following courses: -

Obligatory requirements: (175) credit hours.

- **Elective requirements:** (17) credit hours.

- The student registers courses with minimum of (12) credit hours and maximum of (23) credit hours for one semester, and the Faculty Council may, for reasons of graduation or non-separation, exceed these limits.

Definition of student status:

The student is transferred from the level at which he is enrolled to the next level as follows:

- The student is transferred to the second academic level if he was successful in no less than (28) credit hours.
- The student is transferred to the third academic level if he is successful in no less than (63) credit hours.
- The student is transferred to the fourth academic level if he is successful in at least (105) credit hours.
- The student is transferred to the fifth academic level if he is successful in at least (141) credit hours

Examination Regulations

Semester Work

- The student's activity and level in a course is assessed by the sum of the grades of the semester work and the degree of the final exam for this course. The degree of the semester work of the courses is the degree to which the student's work is done during the semester. The evaluation may include written exams, practical exercises, research, reports, or any other various educational activities for the course.
- Every student who fails to take any previously announced exam of the semester work exams without an excuse accepted by the lecturer, his score is estimated at zero in this exam, and it is included in the calculation of the grade of the semester work. But if the failure is with an acceptable excuse, the lecturer can allow the student to take a make-up exam.

The Final Examination

The final exam for a course is a comprehensive exam in the course, held at the end of each semester once, and it is a theoretical, practical or oral test, or all of that based on the requirements and specifications of the course. The score that the student obtains is the final exam score, and the final exam must be unified in the event that the course is taught by more than one faculty member.

- If the student is not able to attend the final exam in any of the semester courses due to a compelling excuse approved by the Faculty Council, he is allowed to be given a compensatory exam within a period not exceeding the end of the next semester, bearing in mind that the compensatory exam paper is delivered in advance at the time of submitting the semester exam paper to the course.

Electronic Exams

The Faculty Council, after taking the opinion of the relevant department councils, and according to the nature of the academic courses, may decide to hold the exam electronically in one or more courses. It is also permissible to hold the exam in all or part of the course, allowing it to be corrected electronically, after obtaining the approval of the Education and Student Affairs Council at the university for approval in preparation for its presentation to the Council university for approval.

The Final Mark:

- 1- The final score for a course is the total score of the oral and practical examinations and the scientific activities and the final exam score for this course, according to the following percentages: 50% of the maximum score for the course grades is allocated to the oral, practical examinations and scientific activities, and 50% to the written

examination. In all cases, the final score is expressed with an integer number, while always avoiding breaking the score.

2- The student must obtain at least 30% of the written exam score to pass.

3- The duration of the written examination for all courses is two hours.

4- The examination is conducted in the compulsory and elective university requirements courses and the veterinary medical terminology course A written exam only at the end of the semester and its maximum (50) marks, with their grades calculated in the semester and cumulative averages.

5- All courses that the student studies (compulsory and elective) are added to the semester and cumulative average.

6- The maximum score for each course is (100) points, except for some courses. The maximum score is (50) points It is distributed as follows:

a) Theoretical courses only: 100% of the written exam.

b) Theoretical and practical courses: 50% for the written exam. 20% semester works. and 30% for the practical exam.

c) Theoretical, practical and oral courses: 50% for the written exam., 10% of semester works, 30% for the practical exam. and 10% for the oral exam.

Evaluation and Grades

The grades obtained by the student for each course that are included in the calculation of the cumulative averages are calculated as follows:

Percentage	Points	Code	Evaluation
95 to 100	4	A+	Excellent
90 to < 95	3.6	A	Excellent
85 to < 90	3.4	A-	Excellent
80 to < 85	3.2	B+	Very Good
75 to < 80	3	B	Very Good
70 to < 75	2.8	C+	Good
65 to < 70	2.6	C-	Good
60 to < 65	2.4	D+	Pass
55 to < 60	2.2	D	Pass
50 to < 55	2	D-	Pass
Less than 50	00	F	Failed

The student will not be successful in the course unless he obtains at least 30% of the score of the written examination for the course

Semester average (GPA):

It is the average of what the student gets in terms of points in one semester, and it is rounded to only two decimal places, and it is calculated as follows:

$$\text{Semester average} = \frac{\text{Total product (points for each semester course x number of credit hours)}}{\text{The sum of the credit hours for these courses in the semester in which they were registered}}$$

Cumulative Grade Point Average - CGPA

The student's cumulative grade point average (CGPA) is calculated after he has passed all graduation requirements as follows:

$$\text{Cumulative Grade Point Average} = \frac{\text{Total product (points for each course studied x number of credit hours)}}{\text{The sum of the credit hours for these courses that have been studied}}$$
